

## Clark Forklift Attachments

Clark Forklift Attachment - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive brands of forklifts, with parts covering more than 120,000 specific components for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark has a exceptional Parts Distribution team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very outstanding intercontinental support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark has a unyielding objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the extremely economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This system was established to acknowledge the most efficient method of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to upgrade the effectiveness and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines innovative product growth and offers superior consumer support and service within the industry.
