

Spreader Bar for Forklift

Spreader Bars for Forklift - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader manufacturer around the globe. They are a dedicated manufacturer of spreaders meant for a lot of different applications like for example the trailers, handling of containers and swap bodies.

ELME presently employs more than a hundred and twenty five employees with all engineering is done in-house by means of using all the latest CAD systems and FEM tools. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers across the globe.

The ELME product range offers spreaders utilized for different trailer and container handling operations. Several of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers plus a huge array of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by way of using top quality components so as to ensure dependability and top standards while offering competitive prices. Major features of ELME include design simplicity, market response and inventive modular spreader concept.
