

Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the globe of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working within an environment which encourages the utmost integrity with empowered collaboration, together with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and providing a safe atmosphere for their employees to work in. What's more, they have implemented various programs within the company to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever questions or comments, since they are happy to share and promote this policy with a greater understanding of their efforts. They are very dedicated to preserving and improving the natural environment. AxleTech has an EHS program that not only protects the natural world but which also actively protects their workers and neighbors as well.

AxleTech specializes in the designing and manufacture of planetary axles used for both commercial and military applications, which could consist of anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider too. AxleTech specially designs axles so as to meet particular application demands. They have more than one thousand various axle specs within their current offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in numerous military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details which can be found in the "ISAS" product selection.
