

Meritor Part

Meritor Part - Meritor is a leading international supplier which is proudly built on a 100 year tradition of quality and service. They specialize in a broad range of integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in only employing future focused individuals. These top-caliber people could quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance required to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides all of their workers different chances for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their worldwide engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum development at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

The supplier development network is particularly situated to support new business development. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within every aspect of the business. The DFSS or also known as Design for Six Sigma ensures product reliability in each and every region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
